Subject: PRIA Label Amendment – Aldicarb - New Time-Limited Uses Orange and Grapefruit expiring 04/30/2023
Product Name: Meymik Technical
EPA Registration Number: 87895-2
Application Date: February 14, 2019
Decision Number: 549655

Dear Ms. Tillman:

The application referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable under FIFRA Section 3(c)(7)(B) for a limited period of time. The new uses being granted in this amendment will automatically expire 04/30/2023. The following terms apply:

1. You must submit the following pollinator data by the dates listed below:
 - a. Submit of all Tier II protocols for Agency review by March 31, 2021.
 - b. Submit of all Tier I pollinator data by June 30, 2022.
 - c. Submit of all Tier II studies (including the final reports) by December 31, 2022.
 - d. If the submission of Tier II studies is delayed due to circumstances that EPA agrees could not have been foreseen by, or are outside the control of AgLogic and the studies cannot be submitted by December 31, 2022 the registrant will let the Agency know by June 31, 2022 and will work with the Agency on a new timeline.
 - e. The registrant and the Agency will work on the submission timing of any Tier III studies that are triggered.

Non-Guideline**	(OECD 75) Semi-field testing for pollinators (tunnel or colony feeding studies)
850.3040***	Field testing for pollinators
*Tier I **Tier II ***Tier III. The need for Tier III test for pollinators will be determined based upon Tier II tests and/or other lines of data and the need for a refined pollinator risk assessment.	

2. The approval of use on oranges and grapefruit in Florida expires on April 30, 2023.
3. If the registrant chooses to seek an extension for the orange and grapefruit use, you will be required to submit the request via a letter and an updated label with the proposed extension date to the agency by June 30, 2022.

The following will be evaluated prior to approval of the request:

- a. Pollinator studies.
 - b. Current percent crop treated in Florida.
 - c. Any 6 (a)(2) submissions.
 - d. Any additional information received after consultation with state and federal partners to reevaluate the current risk picture for Aldicarb.
4. If the Agency determines it will not be able to grant an extension of the registration you will be notified two months prior to the use expiring. Upon notification, you must submit revised labeling with the orange and grapefruit uses removed for EPA Reg. No. 87895-2 by 1 month prior to expiration. If no revised labeling is received within that timeframe, the registration will expire on April 30, 2023.
 5. Submit one copy of the final printed label for the record before you release the product for shipment.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product

if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e).
